

Instructions – please fill this out and return to Professor Loboschefski NO LATER THAN OCT 20<sup>th</sup> by 4:00. If this arrives after 4:00 – you cannot do the project. Scores for the class will be posted by Thursday 22<sup>nd</sup> at 4. For ease in compiling scores – you should put an “X” in the box if they recalled that number correctly. Each number must be in the correct position to be considered correct; for instance, if they added a number in (e.g. “3 – 4- 8- 6” for the first example) they would only get credit for the 3. “A, B, and C” refer to the results for the three people you need to test.
